Empirical Studies (quanti & quali)

The screenshot displays a library catalog interface with a search bar at the top right containing the text "Alles". On the left side, there is a sidebar menu with the following items: "Meine Bibliothek", "Grupper-Bibliotheken", "Choppify", "Fediverse Research" (highlighted), and "Lesegruppe Digitale Sphäre". Below the menu is a filter section with categories: "Moderation", "Governance", "University", "School", "Public Sector", "Trust", "Media", "Commons", and "empirical study" (highlighted). A list of tags follows, including "No DOI found", "AI", "Blockchain", "Bridges", "business model", "child safety", "Computer Science", "Copyrights", "CSAM", "defederation", "dialogue act", "recognition", "extremism", "Free Software", "Gab", "Identi.ca", "IFTAS", "Information consumption vs production", "Japan", "Law", "Lemmy", "mapping", "Mastodon", "Migration", "network analysis", "Nostr", "Pleroma", "Privacy", "Protocol", "research", "resilience", "scuttlebutt", "search", "Security", "sentiment analysis", "Social and Information Networks", "Steemit", "Twitter", "usage measurement", "user survey", and "WatchGen".

The main content area is a table with the following columns: "Titel", "Ersteller", "Extra", "J...", and a delete icon. The table lists 29 entries, each with a title, author(s), and a citation key. The entries are as follows:

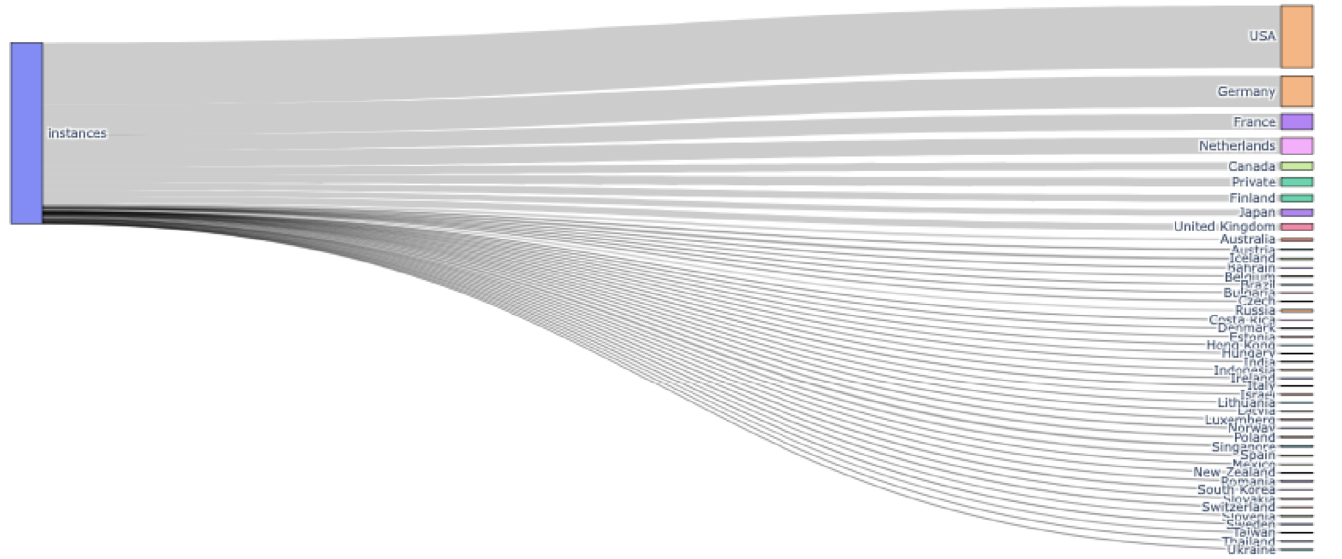

Figure 3.11: Sankey plot showing the distribution of Pleroma instances.

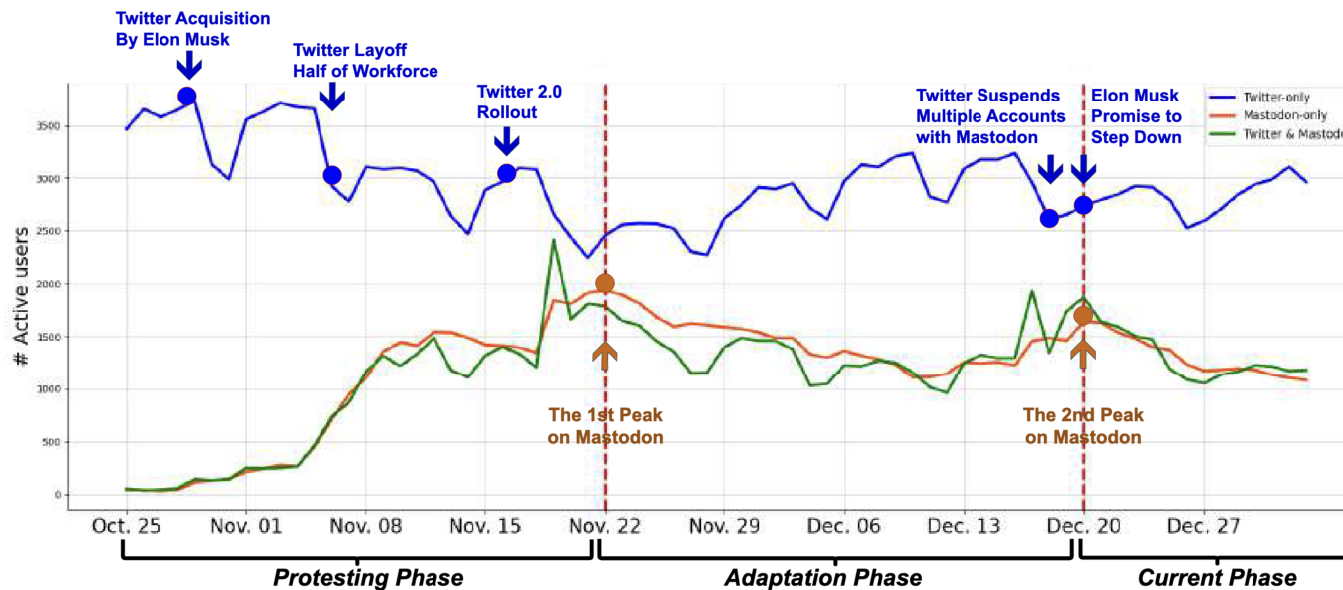

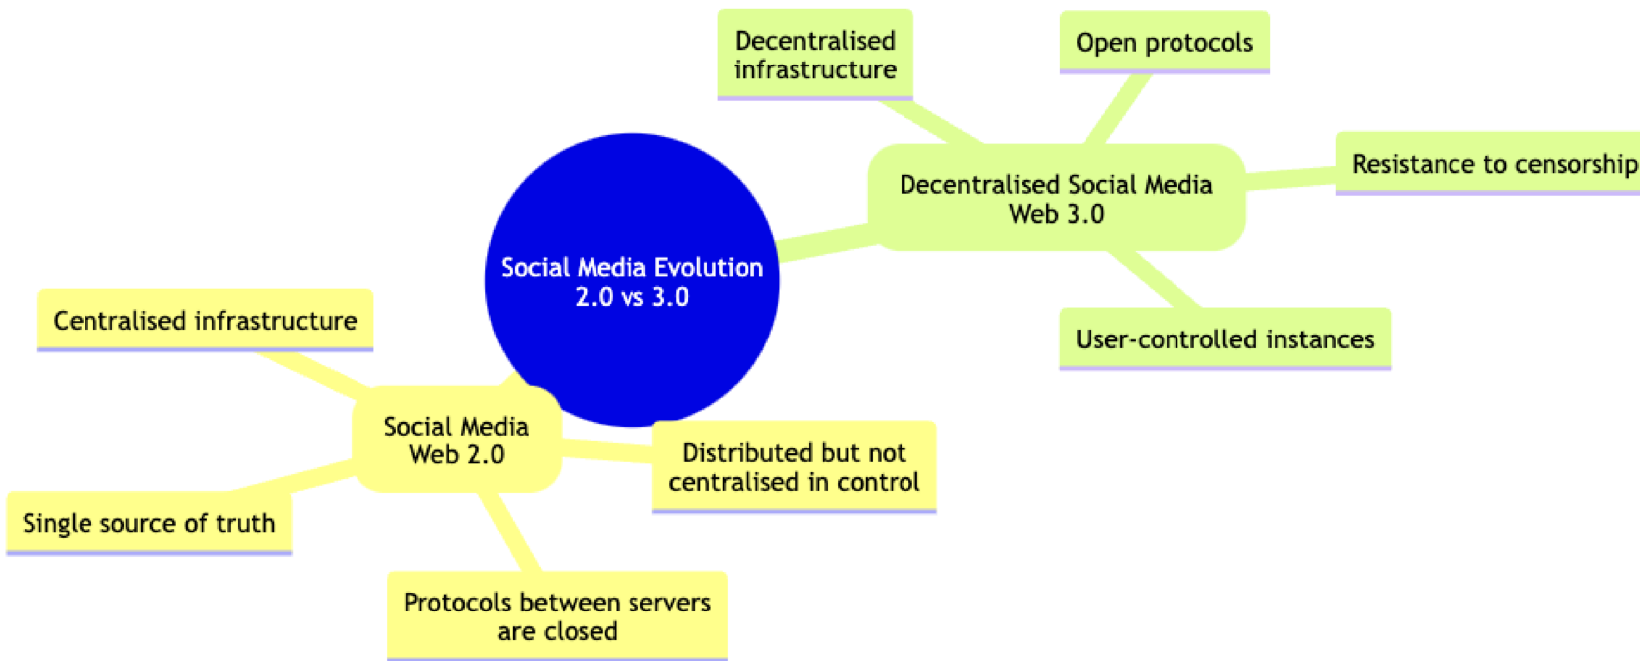

Figure 5: Trends in daily active users tagged with major events. Twitter-only (blue) and Mastodon-only (orange) lines indicate the number of users active exclusively on one platform, while Twitter & Mastodon (green) represents users active on both platforms. The x -axis denotes a particular date t_j , when we assess whether a user was active within the past one day. Red dashed lines highlight the key moments, where the temporal shifts overlap among the three trends (blue, orange, and green)

Jeong et al., Exploring Platform Migration Patterns between Twitter and Mastodon: A User Behavior Study, 2024

*Figure 3: Social media evolution: Web 2.0 vs Web 3.0**

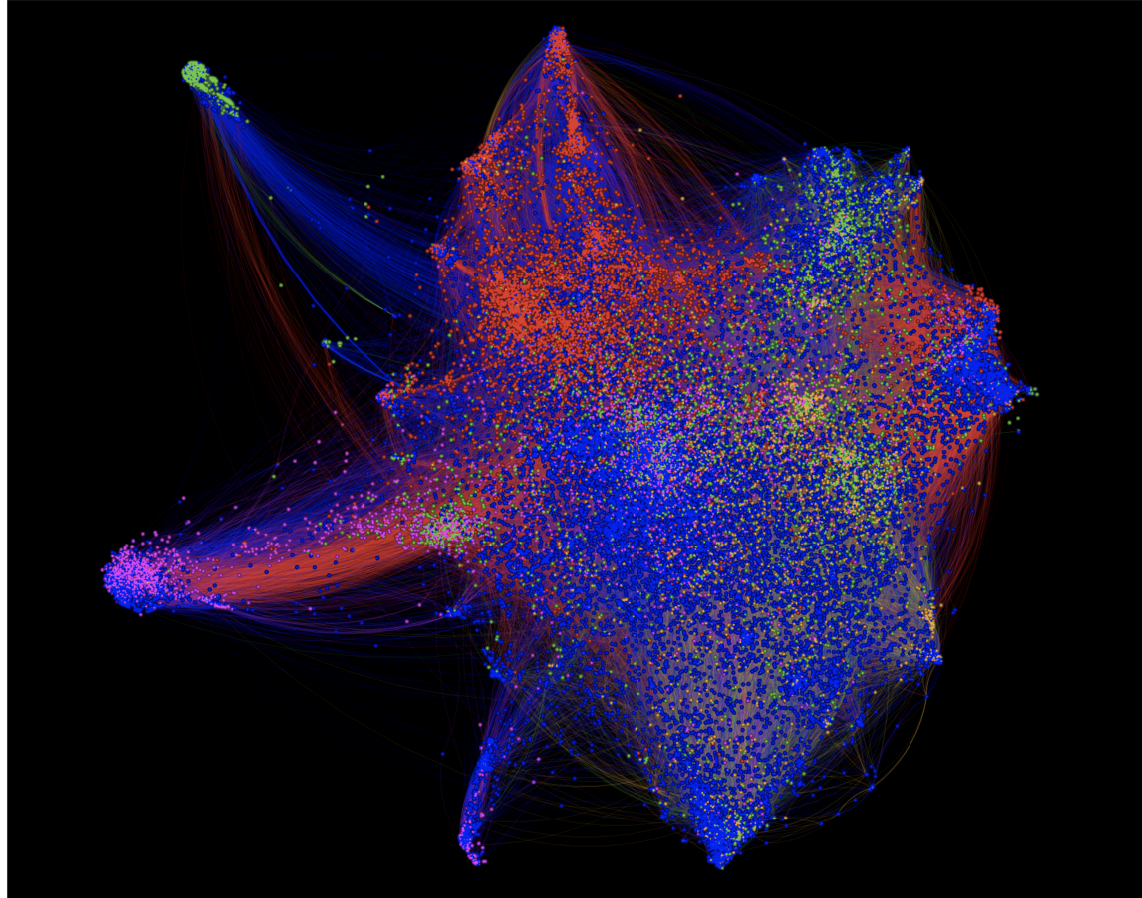

Figure 3: Illustration of the inter-instance subnetwork. Nodes correspond to users belonging to the instances composing the top-5 instance merged network and only inter-instance edges are drawn. Nodes are colored according to their membership instances, i.e., *mastodon.social* (blue), *pawoo.net* (red), *mastodon.xyz* (green), *mstdn.io* (magenta), and *octodon.social* (orange). The color of an edge corresponds to the color of the source instance. The displayed layout is based on the force-directed drawing *ForceAtlas2* model. (Produced by using the *Graphistry* service, available at <https://www.graphistry.com>.)

Moderation & Governance

Findings Report: Governance on Fediverse Microblogging Servers

[Erin Kissane](#) and [Darius Kazemi](#) with the support of the [Digital Infrastructure Insights Fund](#)

Correspondence: fediversalistpapers@gmail.com

August 20, 2024

[\[PDF version\]](#) / [\[web version\]](#)

[\[Quick-Start Guide to Fediverse Governance Decisions\]](#)

[\[Fediverse Governance Opportunities for Funders & Developers\]](#)

Project Introduction

We proposed this project in the fall of 2023 based on our shared sense that the Fediverse's history of resilience and expansion positions it as one of our best chances to allow more people to **maintain strong social connections online while escaping the behavioral manipulation, pervasive surveillance, and capricious governance** that characterizes large-scale centralized social platforms.

Initial research question: "What are the most effective governance and administration models/structures in place on [medium-to-large sized Fediverse servers](#), and what infrastructural gaps (human and digital) persist?"

Our rationale at the project's outset: "The Fediverse's rapid expansion brings both opportunities and multifaceted risks. Our research seeks to identify current server administrators' most promising models for mitigating those risks and outline the biggest and most important gaps in risk mitigation, with the aim of helping the broader Fediverse level up governance quickly, safely, and collaboratively."

Media

The screenshot shows the Display Europe website homepage. At the top, the logo "Display Europe" is accompanied by the tagline "ONE EUROPE, ENDLESS STORIES". Below the logo, the text reads "European news without borders. In your language." and "The best stories from all over Europe, curated by the Display Europe editorial team. This is a growing collection of pan-European journalism, with some stories exclusive to certain languages." A search bar with the placeholder "Search..." and a "Filtering options" dropdown menu are visible. Two article teasers are shown: "Fleeing war, finding exploitation: Ukraine's refugees in Europe" dated "4 September, 2024" and "Hand in hand, Twitter/X and the far-right are unravelling our social fabric". A sidebar on the left lists "Sources" (Eurozine, Krytyka Polityczna, Voxeurop, Display Europe) and "Languages".

Fediverse 2.0

- “Fediverse 2.0, which is well underway - and much more exciting. That’s the Fediverse as a hub connecting multiple platforms: Wordpress, Flipboard, Ghost – and of course Threads.”

([Michael Foster 04.09.2024](#))

Conclusions

- May the Fediverse Research Library be useful to scholars, researchers, journalists and all else.
- Whoever wants to actively contribute to the Library is welcome

Thank you!
